

## HIGH QUALITY SUGARELESS ORGANIC WINES

I write this unsolicited testimony in support of the Ecologicos range of sugarless organic wines

Having been diagnosed diabetic (Type11) a few years ago and to date keeping my blood sugar levels under control through exercise and stringent diet I was absolutely delighted when on a recent visit to the Sunshine Coast in Queensland I was introduced to the sugarless organic wine range by a friend.

I later purchased a half a dozen bottles of various varieties from Laura Adams and I have already consumed two bottles – one of Pinot Noir and the other a Merlot.

The wines have a pleasing palate and a well rounded flavour and are very drinkable if I can use this expression.

Thanks to this range of wines I can now enjoy a meal with a moderate glass of wine as I did when I was younger.

I see this product as a worth service to all diabetics

Yours Faithfully
